ADDENDUM NUMBER TWO

B46-07

Specification No. 046313

CONSTRUCT NEW FENCE

AT CONCORD MUNICIPAL AIRPORT

TO ALL FIRMS OF RECORD: The attention of all bidders submitting proposals for the above project is called to the following changes to the Contract Documents. The items set forth herein, whether of clarification, omission, addition, or substitution, are to be included in and shall form a part of the proposal submitted.

Bidders shall acknowledge receipt of all addenda by writing the words, "Addendum No. 1 and 2," and signing on the line provided for such on Page P-1 of the Proposal.

SECTION 50 CONTROL OF WORK

Addendum Item No.1

Section 50-06 CONSTRUCTION LAYOUT AND STAKES in the General Provisions (GP) of the specification provides guidance to the contractor. It is the contractor's responsibility to layout the fence location. The coordinates are given as points of reference. The engineer will be on site to provide assistance to the contractor in the layout of the fence and limits of clearing. The placement of the fence is not "set in stone" and will not be final until the lines and grade are checked in the field by the engineer and contractor. The contractor may need to perform some of the clearing prior to layout.

DRAWING NO. G1.2

Addendum Item No. 2

Delete reference to "Low Profile Barricades" on sheet G1.2 of the Drawings. Contractor shall use a standard 24 inch high NHDOT approved traffic cone. Cones shall

be removed at the end of work each day. Cones shall be weighted against 100 MPH Jet Blast and placed at 20 feet center to center.

END OF ADDENDUM NO. 2
