ADDENDUM NUMBER ONE  
RFP50-08  
PRESERVATION PLANNING SERVICES  
FOR THE  
HISTORIC AGRICULTURAL RESOURCES SURVEY

**TO ALL FIRMS OF RECORD:** This addendum forms a part of and modifies the proposal and contract documents and technical specifications for the project named above. The following clarifications are made to the original proposal documents:

1. **Question:** My question has to do with Section 4.a.1) on page 13 of the RFP. This task asks for mapping that is compatible with the City's GIS. What format is preferable? Can we use a copy of the GIS and add a layer? And if so, what version of ArcView does the City use? Or would you prefer a CAD file or some other format?

**Answer:** The City uses ArcGIS 9.2 by ESRI. We would accept data in any of the file types supported by ArcGIS 9.2: shapefile, personal geodatabase or file geodatabase. Also, the data should be in the New Hampshire State Plane Coordinate System (feet). If the successful vendor needs some of the City's GIS data to complete their work the City will be glad to assist them.

**PLEASE BE ADVISED THAT THE PROPOSER MUST ACKNOWLEDGE RECEIPT OF ADDENDUM ONE AS PART OF THEIR PROPOSAL SUBMISSION.**
